

UPPER MISSOURI NATIONAL MONUMENT

RIVER BREAKS

Approved Resource Management Plan

Map 2 - Side B East Half Recreation Map

Legend

- Wild & Scenic River Boundary
- Area of Critical Environmental Concern
- Wilderness Study Area
- County Boundary

SURFACE OWNERSHIP:

- National Monument (BLM)
- Other BLM
- Indian Land or Reservation
- U.S. Fish and Wildlife Service
- State
- Private

The BLM has no jurisdiction over private or state land and minerals, and these lands and minerals are not part of the Monument. Landowner permission is required for access to private property.

- Missouri Breaks Back County Byway
- Nez Perce National Historic Trail
- Potential Cultural Interpretive Sites
- Potential Geological Interpretive Sites

River Recreation Facilities

- Level 1 - Developed Public Access Sites**
 - Developed public access sites are accessible by road and have a full range of development that could include parking lots, boat ramps, vault toilets, campsites for tents and RVs, and picnic facilities.
- Level 2 - Developed Upland Sites or Boat Camps**
 - Developed boat camps are accessible only by boat. The sites could include vault toilets, metal fire rings, and occasionally open-air shelters.
- Level 3 - Primitive Campsites or Boat Camps**
 - Primitive boat camps are accessible only by boat and could contain a metal fire ring but no other developments.
- Level 4 - Dispersed camping opportunities.** In addition to the developed sites described above, camping is permissible on any of the 80,000 acres of BLM land adjacent to the river. The absence of development allows opportunities for those who wish to camp in a more primitive setting. Landowner permission is required to access or cross private land with BLM land and landowner permission is required to access or cross private land.

Upland Recreation Facilities

- Level 1 - Developed public access sites** are recreation sites where a high level of development could include campsites, parking lots, vault toilets, interpretive sites, and other infrastructure improvements that accommodate the transition from highway to collector roads.
- Level 2 - Developed upland sites** are campsites, trailheads, scenic overlooks and reservoirs where moderate levels of development could include metal fire rings, vault toilets, and occasionally open-air shelters. These sites are accessible only by road and could contain a metal fire ring but no other developments.
- Level 3 - Primitive campsites** are pull-out sites immediately adjacent to a road. They may contain a fire ring but no other development.
- Level 4 - Dispersed camping opportunities.** Public land in a natural state with no developed facilities. Primitive camping, where access may be accessible by motorized or nonmotorized travel.
